ANECDATA & EYE-CANDY

Oil/Gold/Sectors

Long Bitcoin and Commodities (as an Asset Class) vs. Short Treasuries (TLT) is one of the easier ***#Quad2 Shifts*** *to comprehend...*

1. ***OIL –*** particularly important move in both Oil's *Risk Range™ Signal* today (lower Cycle High down to $102.56 for WTI) and failure to breakout back above our immediate-term TRADE Momentum Level of $93, but Bullish TREND intact – with Oil Volatility (OVX) breaking out towards 85, this signals consolidation of Oil and Energy Stock gains for now

2. ***GOLD –*** another textbook ***Portfolio Shift*** to make here is selling-SOME Oil and buying more Gold, Silver (SLV), and Platinum (PPLT); I bought all 3 for *The Fam* yesterday – see ***Portfolio Solutions*** for my intraday repositioning; Gold's inverse TRADE Correlation to our Short USD Signal is -0.89 and Gold Vol (GVZ) is well below the 33 TRADE Signal

3. ***SECTORS –*** why buy *#MOAB Tech* (XLK = Bullish TREND) after CNBC-types chased it to the TRR (top-end of the *Risk Range™ Signal*) again WHEN I can buy Gold Miners (GDX) on sale at -5% on the day? Added that US Equity Sector Exposure on red yesterday in addition to buying the damn dip in Industrials (XLI) again; sold all my Utes (XLU) as its Signal is suggesting #Quad2 (which it doesn't generally like) is here for ***#Quad1 in Q1 Earnings Accelerating Season***

Immediate-term ***@Hedgeye Risk Ranges*** : SP500 = 6821-7215; UST 10yr Yield = 4.23-4.35%

EDITOR'S NOTE

Momentum Stock Tracker is not an investment advisory service and does not purport to tell or suggest which financial instrument(s) subscribers should buy, sell, or hold for his/herself or on behalf of anyone. It is not a model portfolio and does not provide specific or tailored actionable timing and sizing designed to be relied upon by subscribers. It is not an offer or a solicitation to invest with Hedgeye, nor is it an offer to buy, or a solicitation to sell, any security. It is a dashboard of essential price, volume, volatility, fundamental, sentiment and other market data relating to the listed investable instruments utilizing third-party data ("Third-Party Data") believed by Hedgeye to be reliable. Momentum Stock Tracker utilizes RR Signals as published that morning. Momentum Stock Tracker does not reflect intraday updates to the ranges.
